

PLAY BALL!

Use the clues in the story to fill out the puzzle, first going counter clockwise and then clockwise.

Luke had his uniform on and WAS on his way to play BALL. They WON last weekend and he was trying to ACT like he wasn't excited. "But I AM" thought Luke. He had his BATS in his blue bag with the white STAR ON it. NO way was he going to miss this game. "RATS" he thought, "I have to hurry." He wanted to get there early to take a STAB at pitching. He would go to the MAT and do anything for his team. "I know I CAN do this." All of a sudden he saw an OWL in a tree and a yellow LAB dog running down the street. He knew after he SAW them, they were his good luck charms. He would have a great game today.
